giving light a new  
experience

**PHILIPS**

Imagine a warm white light that looks and feels gentle and welcoming. A refreshing light with an ambiance so natural that it makes you feel right at home.

Imagine revolutionary lighting design so minimalist and versatile that you can use it in your home in radical new ways. Yet so stylish and contemporary, you'll want to make it the centerpiece of your interior.

Imagine a light source that's energy efficient and lasts up to 20 years, so you never need to worry about changing a bulb again.

Philips Ledino is the world's first complete range of indoor lighting using advanced LED technology. It's a light with a minimalist essence that defies traditional boundaries, creating light and lightforms of inspiring purity and beauty.

# *Ledino*

the light of inspiration

# *Ledino*

innovative design  
combined with a  
new technology

LED has been the biggest revolution in lighting technology since Edison invented the incandescent lamp.

The Ledino range offers some undeniable breakthroughs in the field of (LED) lighting for the consumer market. The Ledino LED module boasts a light output that rivals well known conventional light sources such as standard 40W and 60W bulbs, while offering an operational life span of up to 20 years and energy savings of 80%. In addition, a large part of the Ledino range is dimmable, adjustable to the desired scene.

Long-lasting & high light output

Saves energy & money

Extremely long lifespan : 20 years

Warm white light

Low temperature performance

Dimmable

**What is a LED?**

A light emitting diode (LED) is a semiconductor device that emits visible light.

**Why are LEDs being used now?**

In the last 10 years, considerable progress has been made in LED technology, making it possible for it to be used as a light source for luminaires. Until the early 1990s, LEDs were only available in red and green. When the first blue LED was developed, it became possible to create white light. The big difference in today's PowerLEDs is that they have much higher light output than their predecessors.

**What types of LEDs are used by Philips?**

Philips manufactured LEDs are used in the complete Ledino range.

**How long do LEDs last?**

LEDs have a usable lifetime of 50,000 hours or more. In combination with the electronic driver, the luminaire will have a lifetime of at least 20 years.

**The advantages of Ledino**

- Increased energy efficiency
- High light output
- Extremely long lifespan: 20 years
- Cool to the touch
- Dimmable
- Quick start
- Robust and reliable
- Compact
- Safe, low voltage operation
- Low temperature performance
- No UV or IR

# Ecliptic

## 407559348

- FINISH** Anthracite **DIFFUSER** Synthetic  
40W total LED 1.7"H x 25.6"L x 25.6"D | 118.0"OA
- 2,880 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Die-cast aluminum body
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

## 407553148

- FINISH** Matte White **DIFFUSER** Synthetic  
40W total LED 1.7"H x 25.6"L x 25.6"D | 118.0"OA
- 2,880 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Die-cast aluminum body
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

### 407563148

- FINISH** Matte White **DIFFUSER** Synthetic  
30W total LED 1.4"H x 18.7"L x 18.7"D 118.0"OA
- 2,160 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Die-cast aluminum body
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

### 407569348

- FINISH** Anthracite **DIFFUSER** Synthetic  
30W total LED 1.4"H x 18.7"L x 18.7"D 118.0"OA
- 2,160 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Die-cast aluminum body
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

# Cielo

A truly unique pendant. Designed as a modern shade, it appears to be magically lit, showcasing the latest in design possibilities when using LED technology. With 24 state-of-the-art 2.5W LEDs embedded between the steel shade and polycarbonate diffuser, this pendant provides style and warm light for any atmosphere.

## 405501748

**FINISH** Silver Leaf **DIFFUSER** Polycarbonate **SHADE** Metal  
60W total LED 7.9"H x 23.4"L x 23.4"D 126.4"OA

- 2,800 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer
- Aircraft cable and power cord are fully adjustable

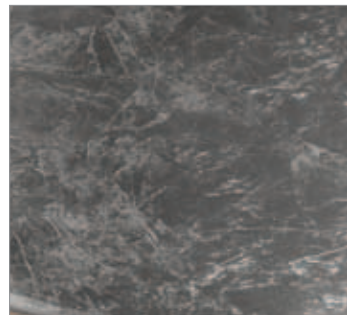

#### 405503148

- FINISH** Matte White **DIFFUSER** Polycarbonate **SHADE** Metal  
60W total LED 7.9"H x 23.4"L x 23.4"D 126.4"OA
- 2,800 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

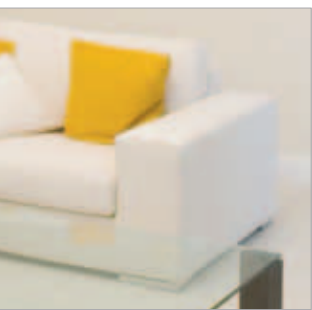

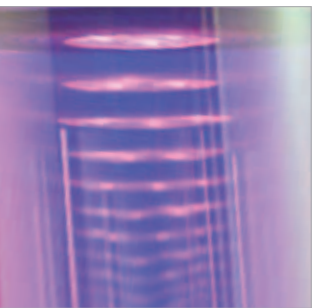

#### 405503048

- FINISH** Black **DIFFUSER** Polycarbonate **SHADE** Metal  
60W total LED 7.9"H x 23.4"L x 23.4"D 126.4"OA
- 2,800 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

# Tubular

Stylish and sophisticated, Tubular features dichroic and clear glass shades. Quirky, innovative and always fresh, the collection cries out for a creative environment in which to flourish.

### 402171148

**FINISH** Chrome

**GLASS** Dichroic and Clear Glass Shade

22.5W total LED 15.9"H x 43.3"L x 4.7"D 134.0"OA

- 1,050 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer
- Power cords are fully adjustable

### 402161148

**FINISH** Chrome

**GLASS** Dichroic and Clear Glass Shade

15W total LED 15.9"H x 24.0"L x 4.7"D 134.0"OA

- 700 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer
- Power cords are fully adjustable

### 402151148

**FINISH** Chrome

**GLASS** Dichroic and Clear Glass Shade

7.5W total LED 15.9"H x 4.7"L x 4.7"D 134.0"OA

- 350 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer
- Power cord is fully adjustable

# Tubuled

## 407151148

FINISH Chrome

GLASS Clear and Chrome Glass Shade

7.5W total LED 15.9"H x 4.7"L x 4.7"D 134.0"OA

■ 350 lumens (initial)

■ LEDs have 50,000 hours of usable life

■ Dimmable with low voltage electronic dimmer

■ Power cord is fully adjustable

#### 407161 I48

FINISH Chrome

GLASS Clear and Chrome Glass Shade

15W total LED 15.9"H x 24.0"L x 4.7"D 134.0"OA

- 700 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer
- Power cords are fully adjustable

#### 407171 I48

FINISH Chrome

GLASS Clear and Chrome Glass Shade

22.5W total LED 15.9"H x 43.3"L x 4.7"D 134.0"OA

- 1,050 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer
- Power cords are fully adjustable

# Dolinea

These striking pendants and wall sconces in matte white metal or finished in a new, high-tech black fabric give a soft, sensual finish to a sleek structure that houses dimmable LEDs.

## 368363048

**FINISH** Black Fabric  
30W total LED 3.6"H x 51.1"L x 1.1"D 118.0"OA  
■ 1,400 lumens (initial)  
■ LEDs have 50,000 hours of usable life  
■ Dimmable with low voltage electronic dimmer  
■ Aircraft cable and power cord are fully adjustable

## 368363148

**FINISH** Matte White  
30W total LED 3.6"H x 51.1"L x 1.1"D 118.0"OA  
■ 1,400 lumens (initial)  
■ LEDs have 50,000 hours of usable life  
■ Dimmable with low voltage electronic dimmer  
■ Aircraft cable and power cord are fully adjustable

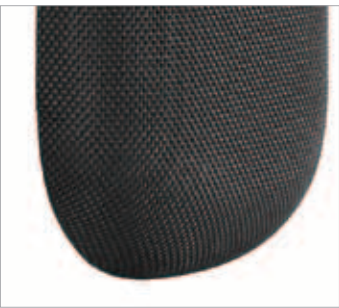

**368373148 ADA**

- FINISH** Matte White  
15W total LED 16.5"H x 4.7"L x 2.6"D
- 700 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Die-cast aluminum body
  - Dimmable with low voltage electronic dimmer
  - Mounts on a standard 4" octagonal junction box
  - Provides up and down light

**368373048 ADA**

- FINISH** Black Fabric  
15W total LED 16.5"H x 4.7"L x 2.6"D
- 700 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Die-cast aluminum body
  - Dimmable with low voltage electronic dimmer
  - Mounts on a standard 4" octagonal junction box
  - Provides up and down light

# Altena

Gleaming with LED brilliance, in transparent and acid glass, the Altena pendant and ceiling mount describe a gentle shining arc that is slim, stylish and sparingly subtle. The Altena pendant features a mechanically tunable LED module allowing for customization of your space's atmosphere.

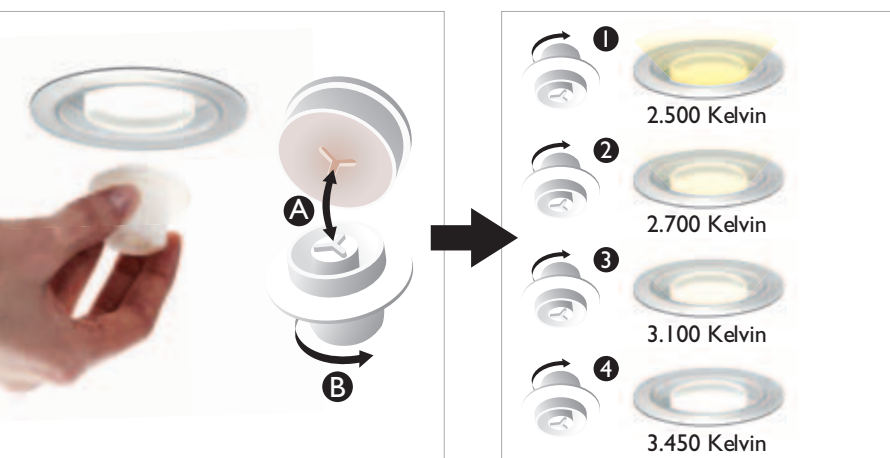

## 379454848

**FINISH** Brushed Nickel

**GLASS** Clear Glass

30W total LED 2.3"H x 46.0"L x 5.5"D 118.0"OA

- 1,400 lumens (initial)
- LEDs have 50,000 hours of usable life
- Mechanically tunable white: choose preferred light color
- Dimmable with low voltage electronic dimmer
- Aircraft cable and power cord are fully adjustable

**379464848**

- FINISH** Brushed Nickel **DIFFUSER** Transparent And Etched Glass  
22.5W total LED 2.0"H x 22.9"L x 7.9"D
- 1,050 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Die-cast aluminum body
  - Dimmable with low voltage electronic dimmer

# Vidro

Pure forms of eye-catching beauty and elegant simplicity crafted from premium blocks of high-grade glass and brushed aluminum.

An invisible disc or plane of light that is both gloriously luxurious and minimalist in its essence.

## 373414848

**FINISH** Brushed Nickel **DIFFUSER** Clear Glass  
22.5W total LED 1.7"H x 15.8"L x 15.8"D

- 1,050 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer

## 373444848

**FINISH** Brushed Nickel  
**GLASS** Clear Glass  
15W total LED 16.9"H x 11.8"L x 11.8"D

- 700 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer

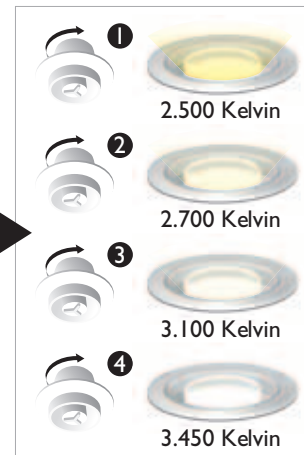

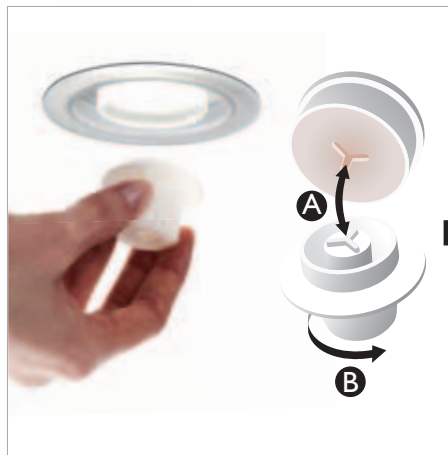

**473464848**

- FINISH** Brushed Nickel  
**GLASS** Clear Glass  
 22.5W total LED 1.0"H x 35.4"L x 7.9"D 138.0"OA
- 1,050 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Mechanically tunable white: choose preferred light color
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

**473454848**

- FINISH** Brushed Nickel  
**GLASS** Clear Glass  
 22.5W total LED 1.0"H x 19.7"L x 19.7"D 138.0"OA
- 1,050 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Mechanically tunable white: choose preferred light color
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

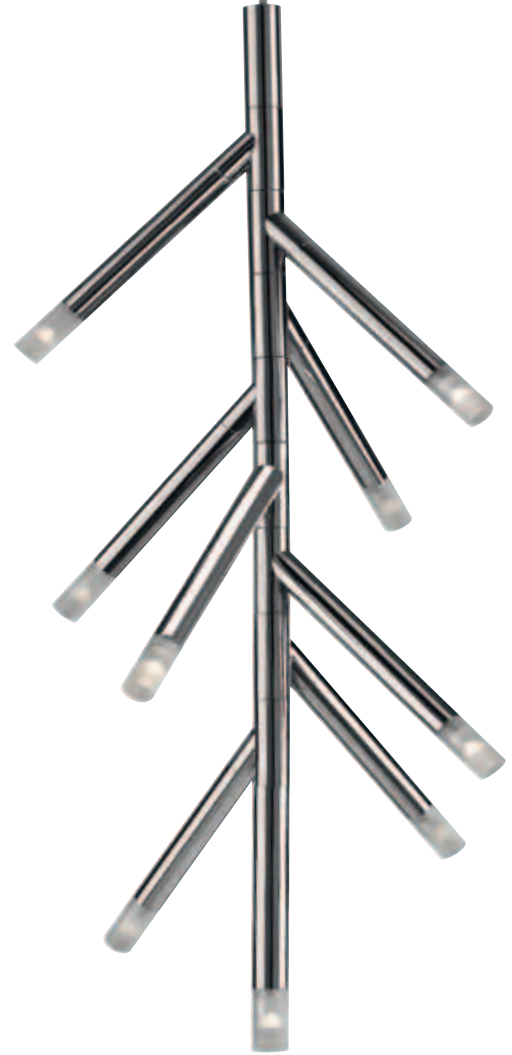

# Branches

Imagine revolutionary lighting design so minimalist and versatile that you can use it in your home in radical new ways, yet so stylish and contemporary you'll want to make it the centerpiece of your interior.

## 40757 | I48

**FINISH** Chrome **DIFFUSER** Synthetic  
25W total LED 21.2"H x 13.7"L x 13.7"D 138.0"OA  
■ 1,000 lumens (initial)  
■ LEDs have 50,000 hours of usable life  
■ Dimmable with low voltage electronic dimmer  
■ Power cord is fully adjustable

## 40758 | I48

**FINISH** Chrome **DIFFUSER** Synthetic  
45W total LED 31.4"H x 13.7"L x 13.7"D 150.0"OA  
■ 1,800 lumens (initial)  
■ LEDs have 50,000 hours of usable life  
■ Dimmable with low voltage electronic dimmer  
■ Power cord is fully adjustable

# Metra

Ultra thin and perfect in every detail, this LED powered, up and down wall light and long pendant are masterpieces of minimalist design.

### 406034848

- FINISH** Nickel and Anthracite  
30W total LED 2.4"H x 38.6"L x 1.6"D 118.0"OA
- 1,400 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Die-cast aluminum body
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

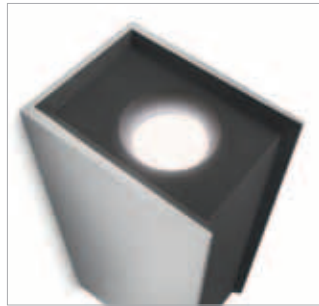

### 336064848 ADA

- FINISH** Nickel and Anthracite  
15W total LED 7.5"H x 2.8"L x 3.6"D
- 700 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Die-cast aluminum body
  - Dimmable with low voltage electronic dimmer
  - Mounts on a standard 2"x4" switch box. Optional back plate sold separately for mounting on standard 4" junction box - 190301048
  - Provides up and down light

### 190301048

Accessory backplate

# Circulis

Lighting the imagination. Imagine a disc of light that is so sleek it is almost as if the light comes out of thin air. That is the effect of the new ultra flat anti-glare LED disc in these ceiling spots and suspension light.

## 579373148

**FINISH** Matte White and Anthracite  
30W total LED 2.1" - 7.5" max H x 18.2"L x 8.2"D

- 900 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer
- LED disc tilts and rotates freely in any direction

## 579363148

**FINISH** Matte White and Anthracite  
15W total LED 2.1" - 7.5" max H x 10.8"L x 7.8"D

- 450 lumens (initial)
- LEDs have 50,000 hours of usable life
- Dimmable with low voltage electronic dimmer
- LED disc tilts and rotates freely in any direction

#### **406023148**

- FINISH** Matte White and Anthracite  
45W total LED 1.2"H x 30.3"L x 8.6"D 118.0"OA
- 1,350 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable
  - LED disc tilts and rotates freely in any direction

# Motion

Floating board of light. 12 LED light sources generate a warm and evenly spread light. Motion is a super slim and eye-catching design made of high quality material. The perfect combination of form and functionality that provides a warm and welcoming light.

## 401953148

**FINISH** Glossy White **DIFFUSER** Synthetic  
30W total LED 0.8"H x 39.4"L x 9.5"D 118.0"OA  
■ 1,380 lumens (initial)  
■ LEDs have 50,000 hours of usable life  
■ Dimmable with low voltage electronic dimmer  
■ Aircraft cable and power cord are fully adjustable

## 401953048

**FINISH** Glossy Black **DIFFUSER** Synthetic  
30W total LED 0.8"H x 39.4"L x 9.5"D 118.0"OA  
■ 1,380 lumens (initial)  
■ LEDs have 50,000 hours of usable life  
■ Dimmable with low voltage electronic dimmer  
■ Aircraft cable and power cord are fully adjustable

# Panel

Panels of light floating in the air. The super-slim design of these flat panel overhead lights, thanks to tiny but powerful LEDs, make these pendants and ceiling lights appear to levitate in the air. It also creates beautiful shapes: a three-panel pendant and an asymmetrical flushmount.

## 406361748

**FINISH** Nickel **DIFFUSER** Synthetic  
22.5W total LED **2.2"H x 14.6"L x 11.8"D**  
■ 1,035 lumens (initial)  
■ LEDs have 50,000 hours of usable life  
■ Dimmable with low voltage electronic dimmer

## 406351748

**FINISH** Nickel **DIFFUSER** Synthetic  
22.5W total LED **0.9"H x 43.3"L x 3.9"D 118.0"OA**

■ LEDs have 50,000 hours of usable life  
■ Dimmable with low voltage electronic dimmer

# Cinta

A sweeping band of light, sleek and minimalist, constructed from aluminum with semi-translucent panels for a creamy, diffused glow. High tech looks matched by high tech lightweight materials – a clean silhouette that hovers majestically in the air.

## 416204848

- FINISH** Brushed Nickel **DIFFUSER** Etched Glass  
22.5W total LED - 1.1"H x 19.7"L x 19.7"D - 137.8"OA
- 1,050 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

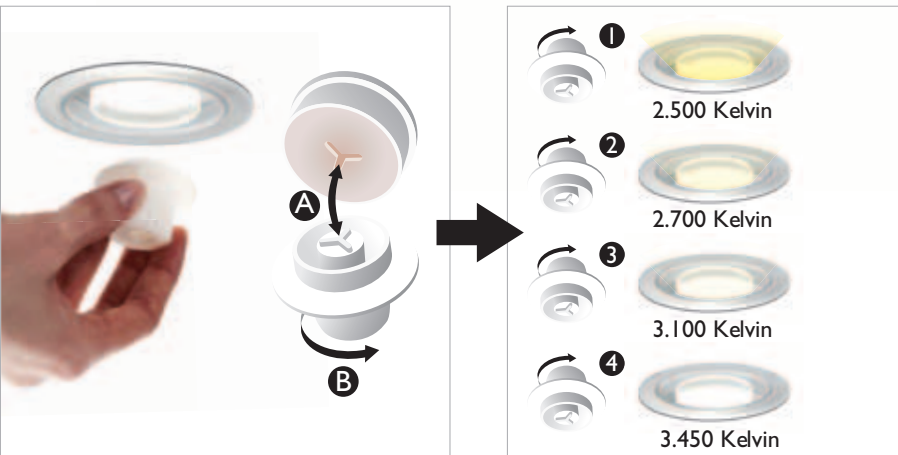

**690544848**

**FINISH** Brushed Nickel **DIFFUSER** Etched Glass  
22.5W total LED 1.3"H x 37.0"L x 3.5"D 118.0"OA

- 1,050 lumens (initial)
- LEDs have 50,000 hours of usable life
- Mechanically tunable white: choose preferred light color
- Dimmable with low voltage electronic dimmer
- Aircraft cable and power cord are fully adjustable

# Benson

The swooping curve of a wing. The curve of this sweeping elongated silhouette-studded with tiny high-power lights-resembles a swooping feathered wing. It's a natural shape that works perfectly in these stunning spot lights, finished in high quality metals.

## 379123148

**FINISH** White

7.5W total LED 6.1"H x 8.3"L x 3.5" - 5.2" max D

- 315 lumens (initial)
- LEDs have 50,000 hours of usable life
- Two light effects - main light through the rotatable LED head for general illumination. Second source on top of the cover box for accent light.
- Two on/off switches included - Each light source is controlled separately.
- LED head tilts and rotates freely

## 379103148

**FINISH** White

35W total LED 4.7"H x 42.3"L x 11.8"D

- 1,430 lumens (initial)
- LEDs have 50,000 hours of usable life
- Illuminated canopy
- Arms can rotate 180 degrees
- LED head tilts and rotates freely

### 379101748

**FINISH** Nickel

35W total LED 4.7"H x 42.3"L x 11.8"D

- 1,430 lumens (initial)
- LEDs have 50,000 hours of usable life
- Illuminated canopy
- Arms can rotate 180 degrees
- LED head tilts and rotates freely

### 379121748

**FINISH** Nickel

7.5W total LED 6.1"H x 8.3"L x 3.5" - 5.2" max D

- 315 lumens (initial)
- LEDs have 50,000 hours of usable life
- Two light effects - main light through the rotatable LED head for general illumination. Second source on top of the cover box for accent light.
- Two on/off switches included - Each light source is controlled separately.
- LED head tilts and rotates freely

# Sail

Plain sailing. This thin, delicate wall light made from premium aluminium is curved gently outwards at the edges, like a sail caught in the breeze. This directs a wash of warm white light upwards and downwards, creating a pleasing silhouette on your wall.

**336041748 ADA**

- FINISH** Nickel

  - LEDs have 50,000 hours of usable life
  - Dimmable with low voltage electronic dimmer
  - Spot head tilts and rotates freely
  - Suitable for wall or ceiling mount

# Mendel

A spectacular gleam of light. The slender and slim brushed nickel pendants hover delicately in the air providing a distinctive and elegant centerpiece.

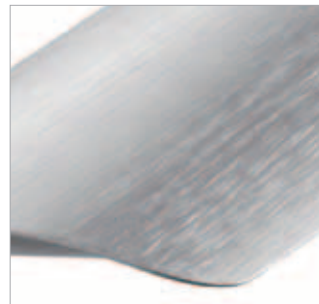

## 378654848

- FINISH** Brushed Nickel  
22.5W total LED 1.0"H x 39.0"L x 5.4"D 118.0"OA
- 1,050 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

**378664848**

- FINISH** Brushed Nickel  
22.5W total LED 1.0"H x 19.7"L x 19.7"D | 18.0"OA
- 1,050 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

# Louver

Pure form of eye catching beauty and elegant simplicity crafted from premium aluminium in brushed nickel finish. The ADA wall sconce is both gloriously luxurious and minimalistic in design.

## 332574848 ADA

- FINISH Brushed Nickel and Black DIFFUSER Glass  
5W total LED 5.0"H x 5.8"W x 3.9"D
- 230 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Can be mounted vertically or horizontally
  - On/Off Switch on the fixture

# Wave

## 439923148

- FINISH** White  
30W total LED 0.7"H x 35.5"L x 4.7"D 137.8"OA
- 1,400 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

Wonderful waves of light. Surf tight waves with this suspended wave-inspired pendant in premium aluminum – an elegant centerpiece to any room. Studded with four tiny high-power LEDs, its organic curves and slim profile are smooth and sleek with no visible screws.

## 439924848

- FINISH** Nickel  
30W total LED 0.7"H x 35.5"L x 4.7"D 137.8"OA
- 1,400 lumens (initial)
  - LEDs have 50,000 hours of usable life
  - Dimmable with low voltage electronic dimmer
  - Aircraft cable and power cord are fully adjustable

# Float

These understated, long-neck portable lamps feature a light that appears to float magically in the air. Designed from the purest of forms, a flat disc of LED light is suspended on top of a slender, flexible neck that arcs down to a slim base.

## 422203148

**FINISH** Matte White  
15W total LED 61.2"H x 12.6"L x 51.4"D  
■ 700 lumens (initial)

Express your  
style with light

**PHILIPS**

# Express your style

# with light

## Decorative lighting that complements your interior design

Philips Roomstylers is a range of decorative indoor luminaires with an emphasis on stylish, contemporary design that offers the perfect complement to your choice of interior design. There are plenty of options and a wide range of styles to choose from, so you're bound to find one that fits your interior and brings out the most in your home. What's more, the light itself creates a pleasant ambiance that adds warmth, joy and life to your living spaces.

Add the personal touch to your interior: choose from pendants, ceiling lamps, wall lights and desk lamps finished in a range of high quality materials like frosted or clear glass, brushed aluminum, matte black, colorful acrylic, chic fabric and more – the possibilities are as unlimited as your imagination.

## Set your scene for sharing

Bring your living spaces to life with warm and cozy light from a lamp that's good-looking enough to be a conversation piece in its own right. Light your main room so it's comfortable and relaxing for sharing with friends and loved ones, whether you need a gentle glow of diffuse light from a subtle wall light or a flood of illumination from a ceiling light or pendant. Either way, Philips Roomstylers provides the perfect setting for socializing or relaxing at home.

## Brilliantly effective

Philips Roomstylers has options for lighting hallways and practical spaces cleanly and efficiently too, providing enough light to get from the living room to the kitchen without any mishaps. And just because it's practical doesn't mean it's plain. The wide range of contemporary shapes and pleasing materials are sure to look as good by day as their beautiful light does by night.

# Create a fun décor

# with light & color

## Light up their eyes with fun

Babies and children need a bedroom that's playful and stimulating, as well as safe and secure. Now Philips Kidsplace gives you the best of both worlds. It's a range of loveable lamps specially designed for little boys and girls. Available in a charming selection of funny flowers, colorful caterpillars, butterflies, super space rockets and friendly shapes, it helps give the young ones a room that feels like their own special place. And it won't just make them feel more at home – it'll make you feel good too for providing a safe and reassuring light.

## A fun and friendly light for them

Philips Kidsplace goes a long way to helping little Miss or Mister feel cozy in the comfort of their own room. The friendly characters encourage children to play and explore, and it's a joy to watch them looking at books or having fun by the kind light of this reassuring luminaire. Each fixture is a character with its own name, and these little luminous pals soon become a reassuring part of your child's go-to-bed routine. They can be left on all night, if necessary, providing a soft, comforting glow.

## A safe and trustworthy light for you

The light from Philips Kidsplace is soft and safe and kind to little eyes too. The diffused and accent lighting is specially designed to give a kind and gentle light, so you can rest assured that it won't do any harm to sleepy young eyes. What's more, these child-safe lamps are made to the highest safety specifications, so there's no danger whatsoever of any little mishaps, no matter how high-spirited your child's little adventures. It truly is lighting that lets you sleep soundly in your bed, as well as your children. Sweet dreams!

## Ease of Installation

Most Philips Kidsplace pendants include a plug for easy installation. You can either hardwire them to a junction box or simply plug them into an outlet by guiding the wire thru the clip on the ceiling.

# CandleLights

Create a unique ambiance around the home. Decorative and enchanting, the CandleLights are great atmosphere makers. They give off a warm glow with gentle flicker, but without the risk of open flames and hot wax. The set includes three rechargeable LED candles in attractive white frosted glass holders. Unlike normal wax candles that eventually burn out, CandleLights provide up to 20 hours of light per charge, and are easily recharged using the wireless induction charger that doubles as a storage holder when the CandleLights are not in use. CandleLights are also waterproof and are not blown out by the wind, so they'll add ambiance to the garden or balcony as well.

## Benefits

- Safe to use - LED technology
- Wireless induction charging
- Cool to the touch
- 10 charging hours, 20 operating hours
- Tilt to turn on and off

**691086048**

GLASS Etched  
3 — LED  
5.1"H x 7.3"L x 7.3"D

# Tealights

A safe way to instantly create atmosphere. The Tealights are a set of six LED Tealights with a delightful flickering effect that simulates the flame of a real tea candle. They are supplied in six stylish frosted glass cups that can be placed everywhere, but since they are the same size as wax tea lights, they fit into existing holders. They can be safely used anywhere in and around the house, and will provide an intimate glow for up to 14 hours. Recharging is wireless, just place the Tealights in the wireless induction charger that is also a handy holder for storage.

## Benefits

- Safe to use - LED technology
- Wireless induction charging
- Cool to touch
- 10 charging hours, 14 operating hours
- Tilt to turn on and off
- Also fits in standard-size tea light holders

**691266048**

GLASS Etched  
6 — LED  
2.4"H x 6.9"L x 4.9"D

# TableLights

A romantic soft glow in an elegant design. The TableLights create atmospheric lighting effects with a romantic glow. They complement every décor — from classic to contemporary. The color model offers a choice of seven enchanting shades (white color included) plus a rainbow effect where it sequentially steps through all colors. Each set contains two plastic lamps that are closed at the top to prevent dust entering, and are waterproof for use on the balcony or in the garden. TableLights are easily charged with the wireless induction charger (supplied), and provide 6 hours of continuous mood lighting.

## Benefits

- Enchanting 7-color model
- Safe usage —LED technology
- Wireless induction charging
- Cool to the touch
- 10 hours charging time, 6 operating hours
- Tilt to turn on and off
- Waterproof — for indoor and outdoor use

# GuideLights

For little ones who need light at night. Guidelight is a children's light that produces a safe, comforting glow that turns itself on when there is movement nearby, yet is soft enough not to dazzle sleepy young eyes.

The Guidelight is easy and safe to use – it lights up with a wave of the hand and is lightweight and compact for little hands. It's a great way to help children through the night, letting the whole family enjoy sweet dreams! Available as a Ladybug, Bee and plain white light.

## Benefits

- LED technology is cool and safe even in bed
- Wireless induction charging
- Automatically charges on charger base
- Motion sensor that automatically lights up for instant orientation
- Safety light — automatically turns on when there is no electricity
- Automatically switches off after preset time or when back on the charger
- Switch to deactivate motion sensor
- Easy to hold or hang up
- Lightweight and portable

# *Philips Innovation*

Philips LED lighting  
See what light can do

**PHILIPS**

### **About Philips high power LED**

In Philips consumer lighting solutions, we use high-power LED types. They enable consumer lighting solutions to be more efficient, more reliable and longer-lasting than ever before possible. Philips supports global agendas to reduce CO2 emissions and builds more environmentally friendly products. With no mercury or lead content and the ability for digital control, Philips high-power LEDs are ideally suited to a broad range of our lighting needs. No longer a light source for the future, these high-power LEDs are the light source for today's lighting solutions.

## **What are the advantages of high power *LED*s in general?**

**Exceptionally long life, longer than any conventional light source.**

- More than 20,000 hours possible

**Environmentally friendly technology.**

- LED saves up to 80% energy compared to traditional light sources – lowering total cost of ownership
- No bulb replacement needed – reliable performance
- Mercury-free light source
- No IR radiation or UV in the beam

**Instant light start-up, with full light output.**

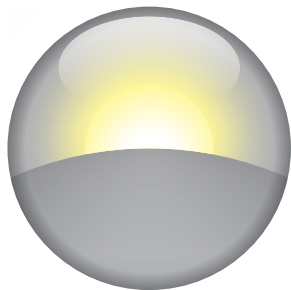

**Broad choice of light color temperature.**

- Warm white light (2,700 K)
- Neutral white light (3,100 K)
- Flexible white light (3,450 to 2,500 K)
- Colored light (RGB)

**High design freedom.**

- Design flexibility, hidden light
- Directed light for increased system efficiency
- Robust, vibration-proof, solid state lighting
- Lower light pollution due to better optical control

**Low voltage and low temperature for complete confidence and safety.**

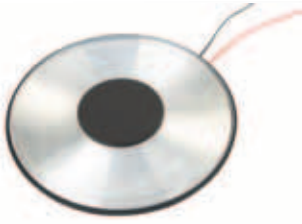

## NEW

# Beautiful warm white light effects with LED for homes (indoor lighting)

To classify the different types of white light, the term color temperature is applied. This color temperature is measured in Kelvin (K). The lower the Kelvin number, the warmer the color temperature (more yellow-red). The higher the number, the cooler the color temperature (more white-blue). Warm white light is standard for creating a cozy atmosphere at home. Ledino introduces the latest generation of warm white LEDs reaching a color temperature of 2,700 Kelvin. This innovation brings LED lighting to the next level, combining elegance, ambiance creation and energy efficiency in one luminaire.

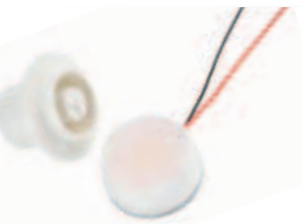

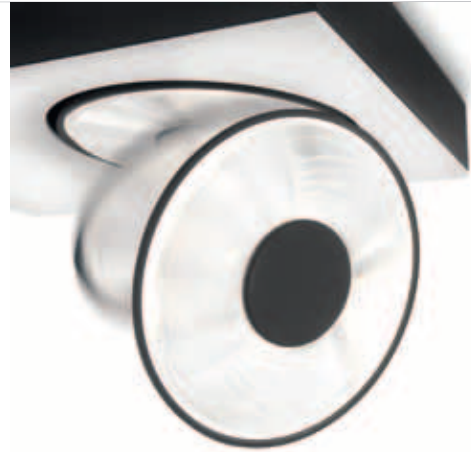

## Technical Specifications

Wattage (incl. driver)	15 Watt
Lumen performance	450 Lumen
Equivalence	40 Watt
Color temperature	2,700 K
Beam angle	40°
Color Rendering Intensity	85

### Anti-glare LED Disc

This LED disc is a unique lighting innovation offered to consumers. This thin module contains 6 single high-power LEDs and provides a strong light output without glare. In addition to its technical performance, this innovative LED disc is unique in its elegant and extremely thin shape, which gives it an important role in the complete product design.

## Technical Specifications

Wattage (incl. driver)	7,5 Watt
Lumen performance	350 Lumen
Equivalence	40 Watt
Color temperature	3,450-2,500 K
Beam angle	50-100°
Color Rendering Intensity	85

### Mechanical tunable white

This 3-LED module marks a new phase in light personalization. This module offers the possibility for consumers to set their own light color, from 2,500 Kelvin up to 3,450 Kelvin, at installation. Once installed, the dimming function of the luminaire performs identically, allowing consumers to adjust the light intensity.

## Technical Specifications

Wattage (incl driver)	2,5 Watt
Lumen performance	115 Lumen
Equivalence	15 Watt
Color temperature	2,700K
Beam angle	120°
Color Rendering Index	85

### Single LED

A light emitting diode (LED) is a semiconductor device that emits light. The high-power LED is fixed on a printed circuit board. Single LEDs are used in small luminaires to create special light effects for decorative purposes or direct light for tasks. Spot light is created with secondary optics and has a beam angle of 120°.

### 3-LED module diffuse

The LED module is a uniquely developed solution by Philips combining 3 high-power LEDs in a synthetic and aluminium housing. This technique enables an optimal light output and distribution, with a 100% uniform light color. This module emits light in the room in a range of 180°, which is ideal for general illumination.

#### Technical Specifications

Wattage (incl driver)	7.5 Watt
Lumen performance	350 Lumen
Equivalence	40 Watt
Color temperature	2,700 K
Beam angle	180°
Color Rendering Index	85

### 3-LED module spot

The LED module is a uniquely developed solution by Philips, combining 3 high-power LEDs in a synthetic and aluminium housing. This technique enables an optimal light output and distribution, with a high uniform light color. This module emits direct light in a beam angle of 40°, which offers the perfect light solution for task lighting and spot lighting.

#### Technical Specifications

Wattage (incl driver)	7.5 Watt
Lumen performance	350 Lumen
Equivalence	40 Watt
Color temperature	2,700 K
Beam angle	40°
Color Rendering Index	85

### Mini Spot

This LED module is composed of 2 high-power LEDs. Thanks to its compact shape it offers great design flexibility combined with a high light performance. It is an ideal solution for spot lighting, as it emits light with a beam angle of 50°.

#### Technical Specifications

Wattage	5 Watt
Lumens	200 Lumen
Equivalence	25 Watt
Color temperature	2,700 K
Beam angle	50°
Color Rendering Index	85

### Mini Sparkle

This LED module is composed of 2 high-power LEDs. Thanks to its compact shape it offers great design flexibility combined with a great light performance. Its unique high-quality sparkling light effect and minimalistic shape are ideal ingredients for decorative lighting applications.

#### Technical Specifications

Wattage	5 Watt
Lumens	200 Lumen
Equivalence	15 Watt
Color temperature	2,700 K
Beam angle	57°
Color Rendering Index	85

### 3 LED-Strip module wide beam

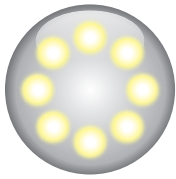

The LED module combines 3 high-power LEDs in a newly developed shape that allows new creativity in design. This technique enables an optimal light output and a 100% uniform light color; within a synthetic and aluminium housing. The LED module emits direct light in a beam angle of 50° (in width) and 100° (in length), which is ideal for wall washers, pendants and desk lighting.

#### Technical Specifications

Wattage	7.5 Watt
Lumens	350 Lumen
Equivalence	40 Watt
Color temperature	2,700 K
Beam angle	50-100°
Color Rendering Index	85

# The guarantee of the best LED quality

## Light color uniformity

To produce white light, the light of blue LEDs is passed through yellow phosphors. The composition of the phosphor determines the light color. By a very careful LED selection

during production, we manage to create appropriate white LED light color among all our LED modules, to ensure color uniformity across our complete portfolio.

## Philips LED luminaire lifetime

LED lighting offers an extremely long life. Philips high-power LEDs have a usable lifetime of 50,000 hours or more.

In combination with the electronic driver, the luminaire will have a lifetime of 20,000 hours (20 years on the basis of 3 hours/day) providing full light performance.

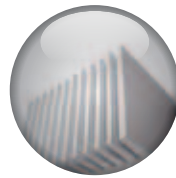

## Color Rendering Index

The CRI is a quantitative measure of the ability of a light source to reproduce the colors of various objects accurately in comparison with an ideal or natural light source.

Classification of CRI properties is based on the Ra range:

Ra	<b>90 - 100</b>	<i>Excellent color rendering properties</i>
Ra	<b>80 - 90</b>	<i>Good color rendering properties</i>
Ra	<b>60 - 80</b>	<i>Moderate color rendering properties</i>

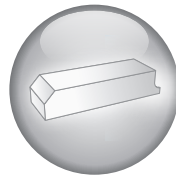

Philips LEDs deliver well on red wave lengths resulting in a CRI of 85 typical.

## Heat management

Good thermal management is essential to conserve the LED light quality and light output over time. Philips cares about the design of the products' heat sink and the right

material selection. By taking care of those elements, it ensures the delivery of great, durable products to consumers.

## Drivers

Philips introduces a new driver type allowing better dimming behaviour of its products. The light level can be dimmed up to 10%. These drivers are compatible with

electronic low voltage (trailing edge) dimmers (see light level adjustability paragraph).

## Light level adjustability (dimming)

Most Philips LED luminaires are dimmable, which means that their light level can be adjusted with a dimmer switch from 100% down to 10% of light output.

The dimming indication is always mentioned on the product packaging and in the manual that is delivered in the box. Most Philips LED luminaires can be dimmed by means of an external trailing edge low voltage wall dimmer (not included in the product box). These dimmers are compatible with electronic (capacitive) transformers and LED drivers. Capacitive load indications are marked with a "C" on the dimmer.

Dimmers with dual compatibility with resistive load and capacitive load, marked with "RC" on the dimmer, will be compliant too.

Philips products cannot be dimmed with Leading edge dimmers.

## Energy efficiency

The LED lighting technology used in Philips luminaires is highly energy-efficient (7.5 W module produces 350 Lumen). As a result, every luminaire conserves energy, helping

consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

Some luminaires use fluorescent lamps that contain small amounts of mercury. Such lamps are labeled "Contains Mercury" and/or with the symbol "Hg." Lamps that contain mercury must be disposed of in accordance with local requirements. Information regarding lamp recycling and disposal can be found at [www.lamprecycle.org](http://www.lamprecycle.org).
